**Item 3:**

*Tech. Literature. (would like it summarized into plain English)*

*We feel VOIT list is not complete and isn't reviewed often enough*

*Want more time to tell DMI what is important to us, and then they can turn it into VOIT's*

*Need to review and finish VOIT list*

*We need evidence of how our needs (VOIT's) are being addressed*

*What is on the list of values we made up?*

There is general confusion around VOITs		Identify VOITs with sufficient time and resources to make the PAC comfortable with the outcome.	December 2008

**Item 4:**

*PAC has little input into process*

*Meetings are too regimented and we feel dictated to.*

	<p>through the TOR. The first 4 meetings were almost entirely devoted to this.</p> <p>Any member can motion to change the TOR at any meeting.</p> <p>The short timelines to complete DFMPs necessitates efficient meeting schedules and we are sorry if that feels too regimented – we are open for suggestions on how to improve this.</p> <p>PRPD has restated at every meeting that we are willing to meet whenever for whatever time frame works for the PAC – this is a decision the PAC has control of.</p>	<p>meet the needs</p>

**Item 6:**

*The PAC should be one group, not separated into First Nations' and others*

<b><i>PRPD Interpretation</i></b>	<b><i>PRPD Comment</i></b>	<b><i>Action</i></b>	<b><i>Timeline</i></b>
	PRPD would prefer one consultation process but the reality is that it will not happen.	PRPD will share VOIT information as appropriate between stakeholders.	Ongoing
	First Nations are independent governments that define their own preferred consultation processes. PRPD has made a determined effort to bring all groups to one PAC. It will not happen in the foreseeable future.	PRPD will convene a stakeholders workshop to discuss/resolve potential conflicts in VOITs during the final stages of strategy selection	February 2009
	In order to meet CSA Z809		

	requirement to consult public for depth and breadth of views/stakeholders DMI will continue to offer various forms of consultation.
